

RAYNBOW COLLECTIVE

MISSION STATEMENT

The RaYnbow Collective seeks to amplify and bring attention to the inclusive work done by on-campus and off-campus groups, clubs, and organizations. We believe that each individual is the expert of their own experience, and each organization is the expert at what they do. Because the RaYnbow Collective is a place of **affirmative allyship** and **action**, we will **listen** to individuals and organizations, **learn** from them, and **take action** because **nobody deserves to feel isolated or alone.**
