

# RAYNBOW COLLECTIVE

## OUR STORY

The RaYnbow Collective was founded in 2021 by Maddison Tenney as a way for LGBTQ+ BYU students to feel connected by sharing stories, art, and connecting them to local resources. As time went on, Tenney realized that while Utah provided a plethora of organizations, many remained inaccessible for queer students at BYU simply because they did not know about them. She has worked with hundreds of other community organizers to create events like Back to School Pride, the LGBTQ+ Utah Summit, DEI training for BYU Faculty and staff, and much more. She is inspired by her faith and her belief that everyone deserves kindness. She hopes that from her work, nobody will ever again feel alone at BYU. Her mission is to be kind, stay curious, and create love.
